

They have presented the most shallow, superficial arguments that I have ever heard on the floor of this Legislature, nothing of substance. Some of it sounded good. Senator Fowler says now you have got the piece and their one is equal to two and two is equal to four. The real gist is that what Senator Fowler said is that you are right, it doesn't address all those, but he said it in such a way you didn't understand what he said and so I am going to interpret it for you. Senator Fowler needs that kind of help. It is like that cartoon on Saturday morning, Go, Go, Gopher, where one Indian says something and you can't understand him and the other one says, him say. Well, him say, him say, yes, this is not going to solve the problem. Him say, it sounds good. Him say, this is something I have always wanted. Him say, this is a popular issue. Him say, this is fashionable. Him say, this is going to make me good with the common cause. It is going to make me good with the Sierra Club. Me say, it is going to cost people jobs. Me say, it is going to cost retailers unnecessary, unnecessary expense, unnecessary inconvenience and me say, finally, the bill does not resolve the problem. You can dress something up. You can make it look good. You can put a tux on a pig but it is still a pig. It is still a pig. It is still a pig.
